My dad is a car guy and raised me the same way. From his Omni GLH Turbo (don't laugh, that thing was fast) to his big block '69 Olds 442, I've always been able to ride in fast cars going back to when I was a kid. These days, I enjoy weekly car shows, trips down the 1320, and have even branched out into the world of Auto-X and road courses. I encourage everyone to sign up on our forum, say hello and tell us about your ride!
