Let's all welcome our newest Shocker Racing model Nicole Lynn. This 28 year old babe is from good ol' Greenfield, Wisconsin. Nicole tells us she has a little experience in the modeling world with only a year under her belt. She did some minor modeling when she was 16 but found a true passion in photography. She tells us I truly love both and believe there is art inside both hobbies. We couldn't agree more!

We found the most fascinating thing about Nicole is that she is a true car enthusiast. She drives an automatic Honda Civic coupe. She has done a few things to her daily with aftermarket wheels and suspension. It was always a daily and want to keep it that way, because I know Honda engines will run for awhile and I can't wait to plan mods for my next car. We are excited to see what she comes up with next. We asked Nicole if ShockerRacing was going to pay for any mod to your car no matter what the cost, what mod would she choose and she had quite a list. I would first and foremost choose a 2jz engine swap, Second either a small or big turbo not sure yet haha! Depends if I want to drift or not I suppose, and Superchargers are pretty cool too. So many things to choose! Just depends on the type of car I would have in my collection.

Nicole told us her first car was a 1999 Toyota Camry. Everyone needs something reliable for their first ride. However, she shocked us with her dream car! That's right people, it's not a mustang! Her List is as followed

Exotic: Ferrari F40 or Porsche GT3

She tells us, like many of our models, she got involved when she was young because of friends. Because of those connections she has had the chance to attend some familiar events out in the Midwest and has even had the chance to travel to ATL for an event as a model. Like many of our models Nicole admits SEMA is one of her favorite events to attend. She had the opportunity to go one year with friends. Although, Nicole, tells us she enjoys mostly drifting events like Gridlife and Formula D.</p> <p

It has mods like Air Lift suspension done to it. She met the car owner through the car community in the midwest. He is the co-lead of Clean Culture chapter out in Wisconsin. Nicole wanted an urban location to show off our Shocker Racing Gear. So she chose this amazing riverfront in Milwaukee. Nicole told us she enjoyed having fun and

embracing the location and the vibes of the shoot. ♦ I was so excited to do my first official ShockerRacing shoot. ♦ Nicole showed us her adorable side when admitting she saw many baby and mama ducks down by the river.

The lotus flower has the most meaning to me because of how far I've come the last few years in my life and displays the triumphs and struggles I've surpassed and accomplished. I always have fire within me and will never stop until I accomplish my goals
